Assignment of the status "Preferred supplier of the Bosch Group"

Dear Mr. Wakamatsu,

A high-performing supplier base is of the utmost importance in every respect for Bosch worldwide. We therefore constantly assess our suppliers as part of supplier management and during the implementation of the Bosch preferred supplier concept. For each material field, we select our preferred suppliers on the basis of defined criteria.

In our supplier pyramid, these suppliers are assigned the status "Preferred supplier".

We are pleased to inform you that we are assigning your company the status

Preferred supplier of the Bosch Group in GPMT Rubber Parts.

The future challenges in a competitive environment and the need to ensure Bosch's innovative force mean that we must concentrate our activities on cooperation with suppliers that demonstrate above-average competence and performance according to our assessments.

Classification as a preferred supplier therefore means that in our opinion, your company meets the necessary prerequisites.
